

## **An Appeal to ALUMNI**

Dear AEES Alumni,

Greetings from AEES

Established in 1969, Atomic Energy Education Society has been serving the cause of education, extending varied educational opportunities to students of DAE and non-DAE community.

As we reflect on the growth and progress of the institution, it has been a long journey dotted with many milestones of success and glory.

Our greater joy is the laurels brought to us by our students over several years as academic rank holders at CBSE exams, winning prizes for sports & cultural activities, pursuing further education and being well placed in and out of India and truly contributing as a competent work force leading to national development.

In our Endeavour to take AEES to greater heights and celebrate the 50 glorious years of AEES, we look up to our mighty alumni and our most potential resource to be in touch with us through an alumni portal.

### Subject

- \* AEES offers the alumni a strong platform for networking which will be mutually beneficial. Registration can be done through the web page or offline form.
- \* The biggest challenge is to create a database of alumni. An appeal to the alumni is to continuously update the list year-wise and geographical location wise.
- \* *We have to keep on achieving different milestones at different period of time, the current being completing an alumni registration through the online portal <http://182.57.2.148:8042/Alumni.aspx> .*

*Your generous participation will be highly appreciated if you wish to register offline by providing the following details through email to*
